

GIONTA'S GENEROSITY

In October of 2017, Brian Gionta, Greece Resident and NHL Hockey player, and his wife Harvest, made a commitment to get as many people out to skate as possible.

The Gionta's donated 50 pairs of skates and a dozen helmets to encourage people, young and old to give ice skating a try.

Supervisor William Reilich and the Town of Greece appreciate the generosity of the Gionta's to enhance the experience of the Community Ice Rink.

HOW WE OPERATE

The ice rink is a natural rink that is dependent on weather conditions for ice quality.

To begin "making" ice, we need an extended forecast of sub 32 degree daily high temperatures and then 3-5 days are required to establish a solid base, your patience is appreciated.

Once established, the quality and safety of the ice is determined by weather factors, patron use/abuse and/or maintenance issues. "OPEN" signs will be displayed when the ice rink is deemed safe and useable.

Ice rink Status will be determined by 2:30pm each day.
